### **Re: Geita Gold Mine Limited Response to Service Levy Claims**

Geita Gold Mining Limited (GGML) notes with concern a resolution made on 13 August by Geita Councils declaring a deliberate personification of matters relating to company interests but further threats to put a stop to business operations in Geita. With such decisions, GGML will seek to pursue legal action in the case that constructive dialogue with authorities fails.

The constructive dialogue held with authorities was aimed at resolving misunderstanding matters relating to local taxes and levies. GGML has always fully honored all the legitimate claims for levies and taxes, including the local taxes and levies payable to the local authorities. GGML has paid over Tshs 2.5 Trillion as contributions to the Tanzanian government through taxes and royalties.

GGML is a values-driven company. One of our core values enjoins us to be accountable for our actions and deliver on our commitments. Importantly, our non-negotiable values demand that we deliver on our commitments in an ethical way.

End
