

# AngloGold Ashanti Tanzania and Tanzania Police Launch Community Policing Outreach Program in Geita

We're excited to share that AngloGold Ashanti Tanzania, in collaboration with the Tanzania Police Force, has launched the Community Policing Outreach Program, running from April to August 2025.

This initiative aims to boost awareness and knowledge around community policing among local leaders, community members, and law enforcement, especially during this election season.

Through joint outreach efforts, the program will support safer communities, reduce crime, and strengthen trust between the police and the public.

One conversation at a time, we're building a safer and more connected Geita.
