

# Regional Commissioner of Singida Visits AngloGold Ashanti Tanzania at OSHA 2025

We were honoured to welcome the Regional Commissioner of Singida to our booth at OSHA 2025. She praised AngloGold Ashanti Tanzania for leading the way in using AI and digital technology to strengthen workplace safety and health.

Even more inspiring, she recognised our ongoing commitment to empowering women in mining with initiatives like the Female Future Programme helping women truly thrive in the industry.

This is a proud reflection of the work being done at AngloGold Ashanti Tanzania. We remain committed to pushing boundaries and setting new standards in the industry.

Be sure to follow us on social media for the latest updates.
