

# Geita Gold Mining Limited Highlights Progress at the 4th Local Content Compliance Forum

From 16–18 June 2025, Geita Gold Mining Limited (GGML) proudly took part in the 4th Mining Local Content Compliance Forum in Mwanza.

Local content is more than a compliance requirement at GGML, it's a core part of who we are and how we operate. Every milestone we reach is a reflection of our people, our partners, and our shared commitment to Tanzania's future.

This year's forum brought together voices from across government, mining, and the private sector under the theme: "Increased Participation of Tanzanians in the Mining Sector: A Catalyst for Tanzania's Economic Growth."

The **Guest of Honour, Hon. Anthony P. Mavunde (MP), Minister of Minerals**, commended GGML’s leadership in advancing local content and contributing to national development.

He also highlighted the recent Gold Sale Agreement with the Bank of Tanzania and applauded our contribution of TSh 5.3 trillion to the national GDP.

Speaking before the Minister, **Senior Sustainability Manager Gilbert Mworja**, echoed the company’s commitment to shared growth. He reaffirmed GGML’s alignment with the Ministry’s vision and emphasised our mission to uplift Tanzanian livelihoods not just through mining, but through values-driven, inclusive development.

The forum continues to be a valuable platform for GGML to engage with the government, share progress on local content commitments, and reaffirm its partnership with Tanzania’s national development agenda.
