

Geita Gold Mine and Geita Authorities Celebrate 2025 Collaboration and Commit to Continued Partnership in 2026

As we closed out a successful 2025, Geita Gold Mine hosted an End-of-Year Function dinner bringing together Geita authorities and company management to strengthen relationships and recognise the collaboration that continues to support our operation and the wider Geita community. **The evening was a simple but meaningful toast, appreciation for the year behind us and confidence in what we can achieve together in 2026.**

In his remarks, our **Managing Director, Ashraf Suryaningrat**, expressed sincere thanks to the Geita authorities, including the **Geita Regional Commissioner, Hon. Martin Shigella**, for their constructive support and steady partnership. He emphasised that making the community better is a core component of our operations, and that **collaboration with Geita authorities enables us to deliver meaningful progress consistently, every year, month, week and day, so that the community is better off with us being here.** He also reaffirmed our commitment to continue working together in the year ahead, noting, **"We are looking forward to continued successful collaboration in 2026."**

Echoing this message, our **Senior Manager (Security), Suleiman Machira**, highlighted the importance of ongoing cooperation in maintaining a safe, stable, and high-performing operation. He thanked stakeholders for the continued collaboration that supports this world-class asset and the people who depend on it, adding, **"This collaboration ensures that this world-class asset is safe, Geita Gold Mine, as well as the Geita community."**

On the other hand, **Regional Police Commander SACP Safia Jongo** expressed her appreciation to GGML for the continued collaboration, not only with the Police Force as a key partner through the ongoing and effective **Community Policing Project**, but also with the Regional and District Security Committees. She highlighted the slogan, **"When Geita is safe, GGML is safe."** Commander Jongo also conveyed her personal gratitude to our Senior Manager (Security), Suleiman Machira, and the Managing Director, Ashraf Suryaningrat, for their unwavering support of the Regional Police initiatives and their active engagement in advancing security operations in the region.

The Regional Commissioner also shared strong appreciation for the company's leadership and the positive working relationship across the operation. He noted that since his appointment, he has not had to intervene or address relationship challenges between employees and management, **an encouraging reflection of teamwork and a shared commitment to resolving any issues together when they arise.** He further recognised the progress being made through our community investment initiatives led by **Gilbert Mworira, Senior Manager (Sustainability)**, and expressed optimism for even greater progress in 2026.

Looking forward, the Regional Commissioner reaffirmed that Geita authorities remain committed to helping the operation succeed and pointed to national-level recognition of the mine's contribution. For example, the recent visit by the **Tanzania Revenue Authority's Commissioner General, Mr. Yusuph Mwenda**, who congratulated the company for being among the **nation's most compliant taxpayers and a leading contributor**, with revenue that supports national development. This message was echoed by the **Geita Regional Administrative Secretary, Hon. Mohamed Jumanne Gombati.**

As we move into 2026, this gathering serves as a reminder that our strongest results come through collaboration within our teams, across AngloGold Ashanti, and alongside the Geita authorities and broader community. Thank you to every employee for the professionalism, discipline, and collaboration that shaped 2025. **With the same shared purpose, we look ahead with confidence to another year of safe, responsible, and people-centred progress.**
