GGML Kili Challenge Makes Debut at the Kili Marathon Expo 2026

For the first time ever, the GGML Kili Challenge is exhibiting at the Kilimanjaro Marathon Expo 2026 marking an exciting milestone in our journey of impact, awareness, and community engagement. This platform also presents a valuable opportunity to **mobilize support, raise funds, and attract new partners**, leveraging the scale and reach of an event that brings together diverse audiences from across the country and beyond.

The Expo officially kicked off today with a vibrant and engaging start, as the Kili Trust booth welcomed a steady flow of visitors, including marathon participants, community members, partners, and stakeholders. The team actively engaged attendees through meaningful conversations on the impact of the Kili Challenge, while also encouraging pledges towards ongoing HIV and AIDS interventions.

What if We Gave Up?

Through the Kili Challenge, we continue to stand firm in the fight against HIV and AIDS, supporting communities and contributing to Tanzania's journey towards the three zeros: **zero**

new infections, zero stigma, and zero AIDS-related deaths.

At the Kili Trust booth, visitors have an opportunity to:

- Make a pledge towards ongoing HIV and AIDS interventions
- Learn more about the impact of initiatives supported through the Kili Trust
- Explore how to participate in the 2026 GGML Kili Challenge
- Engage with the team on additional ways to support and collaborate

For those in Kilimanjaro, we warmly welcome you to stop by, reconnect with the purpose, and reflect on how we can continue making a difference together. Your continued support has been instrumental in sustaining this journey.
