ANGLOGOLDASHANTI

NEW VACANCY POSTING

POSITION	Tradesperson 1 - Plumber
DEPARTMENT	Asset Management & Engineering
LEVEL	1M/C1
LOCATION	Geita Gold Mine, Tanzania
EMPLOYMENT STATUS	Full Time

OBJECTIVE OF THE ROLE

Carry out plumbing installation, maintenance, and repairs safely and efficiently within the Infrastructure Unit under the Engineering Department. Support preventive and corrective maintenance, refurbishment, planned projects, and emergency repairs to water supply, drainage, sanitation, and associated plumbing systems across mine and residential facilities. Install, inspect, maintain, troubleshoot, and repair pipework, valves, pumps, and connected plumbing fixtures to support reliable services and safe living and working conditions. Use plumbing tools competently, interpret plumbing engineering drawings and work instructions, complete accurate material measurement, and work to approved specifications and quality standards.

ROLE ACCOUNTABILITIES

- Observe all HSE policies and procedures relevant to the job in hand.
- Conduct continuous mini risk assessments and plan the job before commencement.
- Always use correct tooling and all necessary permits where required.
- Tag out and report any unsafe equipment immediately.
- Report all incidents immediately and participate in investigations and remediation activities.
- Remove all scrap or left-over materials immediately and maintain good housekeeping in the area of responsibility.
- Take care of personal protective equipment.
- Actively support the Company's safety culture by participating in daily toolbox meetings, weekly safety stoppages, risk assessments, and monthly safety engagements as required.
- Install, maintain, and repair water supply, drainage, sewerage, and sanitary plumbing systems, including pipes, valves, fittings, fixtures, and associated equipment across mine and residential facilities.
- Undertake plumbing works for the maintenance and refurbishment of mine buildings, offices, accommodation, workshops, and other infrastructure.
- Measure, cut, join, test, and install piping and plumbing components in accordance with approved drawings, specifications, and quality standards.
- Carry out preventive and corrective inspections of plumbing systems in buildings, offices, accommodation, workshops, and facilities, identify leaks, blockages, failed components, and other defects, and recommend corrective action.
- Respond promptly to ad hoc and emergency plumbing faults, including leaks, blocked drains, and loss of water supply, to restore services safely.
- Support construction and project teams with pipe installation, connection, testing, and commissioning where plumbing expertise is required.
- Maintain plumbing tools, equipment, and work areas in safe working condition, ensuring proper storage, inspection, and reporting of defects.
- Interpret plumbing engineering drawings, layouts, schematics, sketches, and work instructions to execute assigned tasks accurately.
- Use plumbing materials efficiently to minimize waste while meeting workmanship and quality standards.
- Collaborate with maintenance, engineering, and infrastructure teams to support continuous improvement of mine site facilities and living environments.

ROLE REQUIREMENTS

Education & Qualification

- Completed Certificate of Secondary Education Examination (CSEE).
- Grade I / Level III Technician in Plumbing from VETA or another institution registered by NACTVET.
- Valid Tanzania Driver's License Class B and D.

Experience

- Two to five years of relevant plumbing experience in mining infrastructure or residential facilities.
- Demonstrated experience in water supply, drainage, and sanitary system maintenance.
- Demonstrated experience in pipework, valves, fixtures, fittings, and plumbing system installation and repair.
- Demonstrated experience in leak detection, blockage clearance, and pressure or leak testing.

Knowledge & Skills

- Competence in the use and maintenance of plumbing tools and equipment.
- Ability to use plumbing hand and power tools, pipe cutters, threading and joining equipment, drills and testing instruments, and pipe measurement equipment.
- Ability to interpret plumbing engineering drawings.
- Knowledge of material measurement, estimation, and efficient use.
- Practical plumbing trade skills.
- Ability to read and apply plumbing technical manuals and specifications.
- Able to speak English and Swahili.
- Teamwork and cooperation.
- Attention to detail.
- Ability to work with minimum supervision.
- Consistently meets deadlines.
- Proven ethical behavior and integrity.
- Time management.
- Health and safety compliance.
- Ability to participate in meetings.
- Respect for individual team members.
- Presentation skills.
- Problem-solving skills.
- Focused and stable.
- Interpersonal communication skills.
- Ability to build relationships with team members in functional departments.
